The injured persons are: Joseph Budak, 45 years old; Veronica, his wife, 42 years old; Michael Budak, 15 years old; and Anna Budak, aged 12.

Caused by Kerosene Lamp.

According to Fire Attorney Shirley T. High the blaze was caused by a kerosene lamp left burning near an open window. He maid that apparently the wind had blown the blaze against a curfain. The entire family was sleeping upstairs.

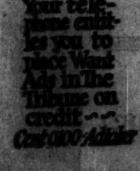

When Michael was awakened he said the house was filled with smoke. He awakened his father, who jumped through a window to the ground and rushed to a neighbor's, where an alarm was turned in.

sent to be represented on such a com-mission, because it desires to continue to pursue its policy of noninterfer-ence in European affairs and will deal direct with the government concerned when engaged in protecting United States interests.

Would Demilitarize Straits.

The allied proposals provide for the demilitarization of the straits, comprising the Dardanelles and Gallipoli, of certain islands in the Aegean sea, of all island in the Sea of Marmora and of island in the Sea of Marmora and of both sides of the Bosporus with the exception of Constantinople, in which the Turks are to be allowed to hold 18,000 troops. No fortifications will be permitted in the areas affected as no battery emplacements allowed.

Although this opposes the Russi

point of view it is not expected to cause trouble, as the Turks have expressed their willingness to have the military fortifications of the strafts dismantled. They prefer to rely for their prought up and emplaced where as when needed. Since there are to be no armed force

MEN'S CLOTHES - A unique record

To celebrate their century of business, Messra. Browning King & Co. of 12-14 West Washington Street are showing in their store windows Thursday, Friday and Saturday, December 7 to 9, full-size models wearing designs of clothing as worn by our forefathers from the time of President Thomas Jefferson down to the present day. This excellent display is full of interest, showing the wonderful and startling changes in wearing apparel for men during a century. We ask the public to look at this demonstration and realize what it means to have behind us 100 years of business integrity and of knowing how.

# Henrici's for Christmas shoppers' luncheons

¶ Old timers remember "way back when" there were ranged along the east wall of the one room that was then Henrici's five or six tables labeled "reserved for ladies."

In those days, Henrici's was favored by a very great preponderance of men. compared with the number of women patrons.

公公公.

I But it became noised about in the homes of Chicago that men got better things to eat at Henrici's than they could find elsewhere.

¶ And so, with their usual, practical good sense the women asked their men folk to take them to Henrici's of an evening, or they came, at noontime, by themselves, to see wherein the much talked of excellence lay.

Then, the "reserved for ladies" sign having become archaic in effect, disappeared one day, without pomp or ceremony.

Christmas shopping, now at high tide, is bringing to Henrici's at luncheon time noticeably large numbers of women. Their pronounced preference for Henrici food and service is evidenced by their willingness to walk at luncheon time two to six blocks from the focal points of Christmas shopping activities.

Why not Henrici's for your luncheon when Christmas shopping?

# Cleaning Service

Old Dutch is a natural-born cleanser. It is composed of pure, soft, flat flakes having a natural cleaning ability. These flakes lie flat and erase the dirt with a clean sweep; they don't scratch it off. A scratched surface quickly collects grease and dirt and is hard to clean. It leaves no greasy film.

Old Dutch saves your energy and time. Avoid cleaners containing hard grit. Gritty particles do not clean easily; and, being hard chunks, they scratch. Each gritty particle takes up many times as much room as a flat flake. Old Dutch is economical because being in flat flakes you get so many more cleaning units and they do better work.

When you realize what Old Dutch does for you, you'll never be without it.

The Cheapest Book in the World

The Encyclopsedia Britannica is the cheapest book in the world. Its 32 volumes—without counting the 15,600 illustrations and maps—contain 49,000,000 words, which would make 476 volumes of ordinary textbook size. These 476 text-books would certainly cost as much as \$1100, yet the Britannica costs only a small fraction of this sum.

On the other hand, no collection of separate books could equal the Britannica in usefulness and completeness. The 476 ordinary volumes would occupy a great deal more space and be far less convenient for reference. The Britannica on India paper takes up ONLY THIRTY-FIVE INCHES OF SHELF ROOM.

Moreover, the Britannica is far more than a mere book of reference for occasional consultation; it is a complete library of information for every-day use and constant reading. It is a book for recreation as well as instruction.

# Spends thousands for safety

Money spent for safety is never extravagance. Every penny we spend on safety is real protection to our passengers. It helps to minimize our share of street accidents.

The next time it starts to rain or snow, watch YELLOW CABS. You will notice that safety chains will suddenly appear on the wheels. This isn't luck. The chains are not endowed with judgment. They don't buy or affix themselves.

It is the direct result of System, Organization and Financial Responsibility. This Company spends \$150,000 a year for safety chains alone. We don't consider it a dollar too much. Maybe we could get along without them and, by skilful driving save this money for the stockholders.

The big thought in our minds is the safety of people who ride in YELLOW CABS as well as the safety of the general public. One hair in your head is worth more than any amount we might save. So far as YELLOW CAB is concerned, no price is too high to pay for safety, and we never allow ECONOMY to stand in its way.

If we were to sacrifice Safety for Economy, YELLOW CAB would be like other cabs. And it isn't like any other cab in the world.

# Are the older children clamoring for tea and coffee?

IT seems natural that they should ask for tea and coffee when they see their elders drinking it with evident enjoyment. But their health will be better if you do not start them too young.

Chocolate Malted Milk is a delicious mealtime drink which appeals to boys and girls of any age. They love it for its chocolaty flavor, its rich sweetness. Yet you have the satisfaction of knowing that Chocolate Malted Milk is a valuable food beverage, thoroughly di-gestible, containing vital elements necessary for growing young bodies.

You can now get. Chocolate Malted Milk in packages at your grocer's or druggist's. The chocolate flavor is already in it. It is quickly and easily served. Just mix it with water or milk, hot or cold. The quantity of Borden's Chocolate Malted Milk used can be varied to suit the dietary requirement or taste of the individual. Get a supply and make it part of the children's regular food schedule.

# PEERLESS

Behind the New Peerless emblem is a rapidly increasing company of drivers, who are convinced that the New Peerless is a realization of their ideal of automobile design and performance.

Theirs is the satisfaction of encountering motive power and dependability that they believed to be unattainable. Theirs is comfort, ease of riding and luxury of appointments heretofore not experienced.

Women, especially, are delighted with the New Peerless Five-Passenger Sedan. Its smart appearance, inside and out; the convenient trunk on rear deck for parcels and luggage; easy power control and steering; brakes that need only a light touch; all make it most appropriate for both town and country use.

COLUMBIA MOTOR

A HOME without music of some kind is a pretty forlorn sort of place these days of peppy fox-trots, of new and popular song hits.

And what a parody on home, home is, without music at Christmas—the big, joyous, happy time of the year, when it's as easy to hum or sing or whistle as it is to think. So this year instead of wondering, "What will I give them for Christmas?" just say to yourself, "I'll give 'em a year-round gift—an all-year source of sunshine and happiness—a Columbia Grafonola."

First—Buy a Columbia for the educational value of music in the home—valuable to the youngsters and to the older folks.

Second—Buy a Columbia for the purity of its voice, its perfection of reproduction, its decorative beauty. Buy it because it has ten remarkable points of superiority that put it at the top of the list of worth-while phonographs made to-day.

You can't begin to estimate the joy and happiness a Columbia will give your folks every day in the year. You won't hesitate when we tell you Columbia Prices Have Hit Bottom.

See the Columbia Dealer in your vicinity to-day and get the facts-prices and terms—you'll be surprised and pleased at the opportunity he will offer you to own the most improved phonograph at a cost you easily can afford.

Do You Spend One Month Of Every Year Traveling To And From Your Work?

REAT numbers of people working in Chicago waste two hours on the street cars or the elevated every day traveling to and from their work. This is 600 hours, or almost one month of actual time out of every year. You can avoid this waste of time by finding a position near your home or by moving near your place of work.

Turn to the "Help Wanted" columns in the Want Ad Section of The Tribune. There you will find desirable positions open in your neighborhood. Or if you want to live where you work, read the Want Ads in the "Rooms For Rent," "Apartments For Rent" or "Houses For Rent" columns (depending on what you require).

#### AMERICAN LEAGUE PITCHING RECORDS

THE quality of pitching served to American league batsmen the last season was a noticeable improvement over that of the preceding year, even though the general batting average showed only a slight decline. Collectively the slabmen of the Chicago, Detroit, and Philadelphia teams showed the greatest improvement, but all of the other teams, save only Boston, were strengthened by the addition of one or more young hurlers whose work this season justifies optimistic expectations for the future.

Urban C. Faber, White Sox veteran, is leading pitcher, as he was last year. Faber led all competitors in hurling complete games, 31; held opponents to the lowest average of earned runs per game, 2.81; worked the most innings, 353; won 21 games, the fourth largest number of victories, and fanned 148 opponents, one less than Shocker of St. Louis, who led in strike outs with 149. Edwin Rommel, Mack's star of the Athletics, won 27 games for his seventh place team, a truly great record. Rommel worked 22 complete games, 294 innings, and allowed 3.28 runs per game. L. J. Bush, with the champion Yankees behind him, garnered 26 victories and lost only 7 games, leading the league in percentage of games won and lost, with an average of .783.

To the Governors and Members of the Mystic Golf Association of Cook County:
Seven successive times you have honored me with election as president of your association.
You have now come to the point in the progres of your organization where you contemplate extending your work by acquiring and building a course of your own. That will require much more time and effort on the part of the responsible officials than I, while holding public office, can possibly hope to devote.

I am therefore forced to the inevitable conclusion that the best
interest of your organization demands that I make place for some
other member to assume the leadership who will be fitted for the
task and have the time and energy

ELLAR gardening is being resorted to as a means of supplying fresh vegetables sil winter. This project has not developed much in this country, but it has possibilities. Asparagus, sea kale, rhubarb, and caufflower can be grown in a cellar garden. Forcing roots of these plants may be bought from seed stores.

Of all the cellar garden plants, rhubarb seems best. In forcing rhubarb forced any time during the winter obtained.

## "Rigoletto" Wins Warm Reception

While the full, throaty voice toiled on, Corbeyne regarded with dull detachment this life that had been prepared for that had been prepared for him. It would have been wiser, he thought, to have shaved off

"Mr. Brierly." He had been careless not to do so.

"But what I really am proud of myself for doing is getting a maisonette," Katherine was concluding, "in Ealing, John. If course, this little place'll be mitted. It is all very mysterious, but were such a permission in existence, different after that lovely house, and how I shall do with only one or two servants instead of four—or five, was it?—

When it came to the last act, where Ina Bourskaya as Mad-dalena and Angelo Minghetti as the Duke of Mantua joined this pair in the famous quartet, there was joy for every one. Miss Bourskaya was an ideal vocal and physical type for her rôle. Mr. Minghetti was not quite at his best, which fact is not to be charged against him, since only twenty hours before he was reported the throes of a severe cold.

Ettore Panisza, the conductor of the evening, carried the short first act through in a brisk, lively style, then transferred into his customary polished, mannerly urbanity, not forgetting to build up a fine climax in the emotional scenes. As a specimen of his excellently controlled command over his forces, one remembers with pleasure the chorus sung at the end of the second set.

Geisha Girls Are Maligned
Julian Street, the magazine writer, last night defended the geisha girls of Japan against the ill-fame which attaches to them in this country. Much of the propaganda, he said, has been brought by missionaries.

Mr. Street, addressing an audience at the Chicago College club, said that he had found the geisha girls of the most modest and maidenly deportment conceivable and that his inquiries among the Japanese people supported his statements.

Adding to his accounts of a recent visit to that country, Mr. Street delared that the "yellow peril" is a myth inspired only by yellow journalism.

Those whose birth date it is should be cautious about diet during the coming year so that indiscretions of food and drink will not undermine health and activity necessary to combat the difficulties which may arise. You, of to-day's birth date, love liberty with a spassionate attachment. You not only demand it for yourself, but will fight for it for others and as a principle. It may be that this combative nature and love of freedom will not express itself in physical action, but will be a mental attitude. You then show flery speech and a biting tongue. You are the kind of person easily drifting into the life called bohemian. A child born on this day may meet with many complexities before life is ended.

A razor ad to Women

A Christmas Present of "The World's Fastest Shave," makes men folk happy

Men are talking about a new era in shaving. A way that gives the world's fastest shave. And the smoothest.

Millions of men already employ it. For it offers joys undiscovered before.

Now we suggest it as a Christmas delight for women to give. And men folks to each

#### A velvet shave-quickly

Go today to any dealer's. Ask to see a Valet AutoStrop Set.

You will have before you the world's finest shaving mechanism.

Men are proud to own one. A gift of excellence even to the man who owns a dozen

Included in every set is a supply of barber's edged blades—the keenest cutting edge known. Blades kept so keen that once over the face gives a velvet shave. No pulling, no scraping, as in old nime ways.

#### Strops itself

We recommend the use of our famous strop for the same reason a barber strops his razor. It keeps up the keenness. It works as a part of each razor. There if a man cares to use it, or if he chooses, he can just insert new blades as he feels the need. Self-stropping is a patented Valet AutoStrop feature. It helps to give the. world's fastest shave every day.

#### \$1.00 and up

You can obtain a Valet AutoStrop Razor at any dealer's, \$1 and \$5. The difference in price is marked by the superior finish, the better case and the greater number of blades. Gold and silver plated fitted sets—ideal for gifts—are priced up to \$25.

Whichever one you choose will do the work -the world's fastest shave.

The gift that will please every man. It solves

# Read The W When does an incident become news? How

are spruce trees converted into newsprint? What is a "replate"— a "stereo"— a "mat?" How are "cuts" made?

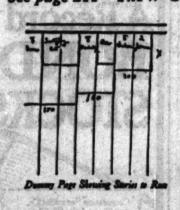

Often I have thought about that pleasant delusion of the laymen: 'How thrilling and exciting it all must be.' The most exciting moment I can think of is when, at the deadline—the instant of going to press—a copyreader is trying to summarize a two-column story into a headline of 131/2 letters when his mind seems mechanically determined upon 14 letters. That half letter is holding up a whole composing-room, a mob of sweating, impatient stereotypers, a battalion of inky pressmen, a wagon train of circulation drivers and a half million readers. The torment that passes in that copyreader's brain is all the nerve-racking strain of a lifetime crystal-lized into the moment. And yet those who seek to view from the sidelines the mad clamor of the newsroom will find their sole recompense in a lone individual sitting quietly and thoughtfully at a desk."

phase of the work to which the men take more readily than to the other duties. In the first six miles of Rocky river above the Gulf-are eight rapids and six waterfalls. Islands are plentiful. As a result the logs jam, dynamite must be used, and hardy lumber jacks risk their lives to sweep the last log from slippery rocks and boiling torrents.... When the logs reach sea level they are caught

by booms-logs chained end to end to reach across the stream. They are moved over to the sawmill by encircling as many as are needed and towing the whole loosely floating raft . . . . .

The Negative is first flowed (flooded) with a solution of

sulphate of iron and acetic acid which brings out the image and then with a weak solution of cyanide of potassium, which "fixes" it. Next comes a flow of sulphate of copper and bromide of potassium which intensifies the image. After being washed in water, it is flowed with nitrate of silver. This blackens the See page 239-The WGN shades . . . . .

The Linotype machines are busy about sixteen hours a day with various kinds of copy: The day shift of printers set classified and display advertisements and articles for the inside sections of the Sunday newspapers. In the afternoon the market tables and stories and the editorials begin to come to the machines, and in the evening and most of the night they are busy with news stories for the current issue, sandwiching in advertising and Sunday copy and news matter for later issues during the slack periods in the flow of news.... It may be of interest to follow through the operations of a typical day in The Tribune's Composing Room . . . .

See page 227-The WGN

The Presses are the most expensive part of the equipment for the COLORoto process, although the principle is simple. Each engraved cylinder revolves in a veritable bath of ink. After turning a little farther, the surplus is wiped off clean by means of a steel knife—known as the "doctor blade," a thin, flexible knife of steel, which is drawn obliquely across the etched cylinder and which runs the full width of the copper cylinder, so that when the cylinder comes into contact with the paper its surface is scraped free from ink, except in the cavities or wells. . . . . .

See page 260 - The WGN

During the first instant that the pulp is on the screen, water drains through the holes by gravity. The next instant it passes over vacuum boxes which suck the water out more rapidly and mat the fibers more firmly. Within three seconds the milky liquid has been converted into a sheet of paper which passes

off the end of the screen between two great rolls that squeeze out still more water. On leaving these rolls it is strong enough to make the jump unsupported to another series of cylinders called press rolls, where it is further squeezed and dried by enormous wool blankets running in endless belts. From the press rolls it present to a See page 222-The WGN it passes to a. . . . .

# Gas Industry

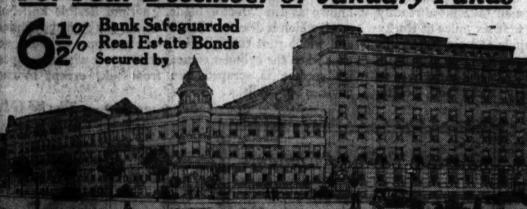

What is the future of the Gas Industry? Will Electricity displace gas on account of the increasing popularity of electric illumination? Or will the increasing use of gas for domestic and industrial purposes counteract this loss?

These questions, which are of great interest to investors who hold bonds or stocks of gas companies, are discussed in a pamphlet-a copy of which will be gladly sent on request without obligation.

# Build Your Estate with Sound Bonds

THE trend of present day bond buying is toward those bonds in which security is unquestioned. The careful investor buys his bonds with thought of building a permanent estate based on the sound value of his investments. He accumulates bonds which are high in collateral value and which, at the same time, yield a generous interest return.

The bonds we list below combine safety and income. At present prices they are attractive.

The First War Bonds. and the Bank they Developed

VENICE, in the twelfth century, held monopoly of commerce with the East. To avenge attacks on her traders by the Greeks she declared war, raising funds for its prosecution by a forced loan at 4% on her wealthy citizens.

A Chamber of Loans, instituted to manage collections, was sub-sequently organized by the bond holders as a Bank of Deposit. From this developed the Bank of Venice with State powers to handle the public debt and lend on security. It operated for six centuries until Napoleon overthrew the Republic in 1797.

This bank development marks transition from the individual money lenders of older times.

FIRST PUBLIC OFFERING

MANAGEMENT AND CONTROL

The company is an Illinois corporation, managed and controlled by the Van Schaack family, a name associated with the drug and chemical business in Chicago since 1865.

The company manufactures Nitro-Cellulose and its solvents, including Amyl Acetate, Butyl Acetate and Ethyl Acetate. Its products are used in more than a score of variated businesses—its permanent market is protected by exclusive manufacturing processes and patents that have gained it recognition as one of the important factors in the industry.

PURPOSE OF ISSUE

The proceeds of this issue are to be utilized for justifiable extension of its facilities for handling a business that is the largest in the history of the company. Added equipment is needed to maintain uniformly excellent service to customers-an essential contribution to good will.

DIVIDENDS AND PRIORITY Quarterly dividends have been maintained continuously since the company's organization—and a strong position with its depositories assures "safety of investment" to stockholders. The present preferred issue is the senior obligation of the company—with no other liens or mortgages on the property. We conscientiously recommend it for both safety and yield.

The Company produces staple goods in universal demand distributed to a and the wholesale dry goods trade throughout the United States and Canad

Mortgage Security: The bonds will be secured by a closed first mortgage on all the Company's plants, as well as by assignment of its valuable patents, copyrights and trade-marks. In a recent independent appraisal the Company's plants have been given a reproduction cost of \$4,789,500 with sound depreciated values of \$3,544,000, or in excess of three times the total authorized bond issue. The appraisal value of the hard and buildings alone is \$1,300,000. Insurance aggregating \$2,700,000 is carried upon the Company's plants.

Earnings: Average annual not earnings for the 7 years and 10 months ended September 30, 1922, (including the readjustment period of 1920 and 1921, in which the earnings for 1920 were reduced to \$95,511 and in 1921 showed a loss of \$761,353) after interest and depreciation, but before Federal Taxes, were \$308,642, equivalent to 3½ times the maximum interest requirement upon these bonds. For the 5 years and 1 month prior to the 1920-1921 readjustment period, average annual not earnings were \$632,500 or over 7½ times interest requirement on the bonds. For the first 9 months of the current year net earnings, after depreciation but before interest and Federal Taxes, amounted to \$103,902.

# Every man knows his Will should be on file now!

He knows that the last—and the most precious—of his privileges is the right to distribute what he has to those who need it most—those who are dependent or deserving or have been good to him.

Will you let another year go by—and take the chance that the law will divide your property mathematically—regardless of what your judgment would be—because you have been short-sighted or "too busy" to write down your wishes?

Making a will is a simple matter. It is just writing down your wishes clearly, with due regard to financial and legal experience. With our help you will find it easy to list your holdings and decide how you wish them divided. Our trust officers will gladly help you and your lawyer with the financial details.
